PROGRAMMING SKILLS: {

- **Frontend:** [
 'Svelte',
 'NextJS',
 'VueJS',
 'HTML & CSS & SCSS',
 'TailwindCSS'
],
- **Backend :** [
 'NodeJS',
 'ExpressJS',
 'Java (Spring boot)'
],
- **Databases:** [
 'MySQL',
 'MongoDB'
],
- **Integration:** [
 'REST APIs',
 'API Design & Development',
 'Webhooks',
 'WebSockets',
 'OAuth',
 'JWT',
 '3rd-party APIs (Stripe)',
 'Postman'
],
- **DevOps:** [
 'Git',
 'Ubuntu',
 'NGINX',
 'PM2',
 'CI / CD',
 'Docker'
],
- **Testing:** ['E2E', 'Unit test (Jest)']]

}

PROFILE

I am a highly motivated computer scientist with a strong passion for the IT industry, always eager to learn and adapt to new technologies. I have good communication, problem-solving and organizational skills along with analytical thinking. Possessing a detail-oriented mindset, I am capable of working effectively both independently and in a team. Strong organizational abilities with proven successes managing multiple academic projects, as well as successfully managed and developed a real project for a company.

At least 2+ years of full-stack development.

STUDIES

KEA – Computer Science (Copenhagen, DK) 2020 - 2023

- development-based knowledge about applied practice, theory, and method in relation to software development and of relevance to the profession
- understanding of fundamental company operations in relation to systems development
- understanding of the technological concepts and the technological platform of computer systems in relation to programming

Theoretical High School of Computer Science “Grigore Moisil” (Iasi, RO) 2015 – 2018

EXPERIENCES

Ask&Share (Startup) – Volunteer Full-stack Developer Sep 2023 –

[Project Demo](#) (link) – still in development

- Team Lead and Full-stack Developer: Led a small team of developers in a startup environment, overseeing the development of a web application. Assigned tasks, set project goals, and ensured timely delivery of high-quality code.
- Actively participated in the development process as a full-stack developer, contributing to the coding and implementation of key features. Leveraged skills in UI/UX, HTML, TailwindCSS, NextJS and backend technologies (NodeJS, ExpressJS).
- Successfully integrated various functionalities into the web application, including Webhooks, OAuth, and Stripe payment.

AGC Biologics A/S – Consultant Full-stack Developer Feb 2023 – Sep 2023

[Project demonstration](#) (Link - video)

- Developed, implemented and managed a cutting-edge digital floor plan project (internal use), that will increase the efficiency for the IT department and other employees, resulting in a significant reduction of time spent on managing & finding important equipment.
- Utilized HTML, CSS, JavaScript, and Svelte for the front-end development. On the back-end, Node.js and Express.js for server-side logic. Additionally, used DevOps practices to set up an Ubuntu server, configure it, and establish continuous integration and continuous deployment (CI/CD) pipelines.

LANGUAGES:

- Romanian native
- English professional
- Danish beginner

DRIVING LICENCE:

- A & B category

AGC Biologics A/S – IT Support (Søborg) Mar 2022 –

- Internal customer/end user support
- Day-to-day execution of maintenance and operations
- Troubleshoot problems with the operation
- Assisting with solving IT ticket tasks
- Set up equipment for new employees, contributing to asset management

NewBanking Identity – Frontend Developer (Internship) (CPH)

Aug 2022 – Oct 2022

- Implemented new features using VueJS
- E2E testing / Unit testing (Jest)
- Bug fixing
- Learnt new technologies: Vue.js / Jest / Bitbucket / CircleCI / Jira
- Learnt to establish a good communication with UI/UX designer and Product Owner

Just Eat – Driver (CPH) Nov 2020 – Feb 2022

SP34 – Waiter (CPH) Nov 2019 – Mar 2020

EXTRA ACTIVITIES

AEC HACKATHON @ BLOXHUB 2021, Copenhagen, DK Oct 2021
